Hold on to my voice (Hold on to my voice)
Hold on to my voice (Hold on to my voice)
Hold on to my voice (Hold on to my voice)
Hold on to my voice we'll sing through together

Every day sun comes up
Every day sun goes down
As the world turns around
Hold on to my voice we'll sing through together

Music makes the world turn
Takes the burn in our hearts and lights a fire
Music makes the world turn, lonely as it seems
Hold on to my voice we'll sing through together

In the night, Stars above
Fire light, voices raised
If your heart, comfort craves
Hold on to my voice we'll sing through together

Music makes us stronger
Takes the burn in our hearts and lights a fire
Music makes us stronger, lonely as it seems
Hold on to my voice we'll sing through together

Hold on to my voice (Hold on to my voice)
Hold on to my voice (Hold on to my voice)
Hold on to my voice (Hold on to my voice)
Hold on to my voice we'll sing through together
